About the history of the sanitary napkin

China sanitary napkin has an important place in women's history and in the history of technology in China. In the 19th Century research into feminine hygiene products marked the humble beginnings of a new era about gynecological culture. The invention of cellucotton, however, utilized itself to other applications including disposable bandages, and sanitary napkin with wings by extension. Formerly, Products like the China sanitary napkin lack of publicity unlike today. It was not as widely discussed or advertised.

Introduction of China sanitary napkin

The most important ingredient of china sanitary napkin is the fresh woven web. It having annular system makes liquid leakage be absorbed immediately. Sanitary napkin with wings can not only protect skin from leakage effectively, but also keep the surface fresh and dry at any time. Ultra-thin sanitary napkin is most in soft and thin design which will always keep women comfortable and allow them active movement. It does be more healthy

and convenient to use our products- sanitary napkin with wings, dry-weave sanitary napkin, adult diapers, night use sanitary napkin, super thin sanitary napkin, china sanitary napkin, ultra-thin sanitary napkin, belt sanitary napkin, lady napkins, and feminine hygiene products and so on in special time.
